Parents were greeted and directed to sign in. They were asked which grade their student was currently in. Families received Living Life Online as well as either a 7th or 8th grade 2017-2018 Course Selection Sheet. If the student is going to be a 7th grader, their information also included vaccine and booster information-except for the first few families that came as the information was not in the library until after event started. The forms were explained to families and they were told that the students will get an explanation from the counselors and will be bringing a packet home within the next few weeks. Families also picked up extras for friends and families that were unable to attend. Dana Wright was present for questions at times as well as Jennifer Studebaker to speak with families about any questions they had particular to their student. Snacks and water were offered to either eat at PJHS or free to take with them. Time was extended to 1:30pm for families that were still coming in. Families were free to come and go. We were thanked for taking the time to answer their questions and for having such a quick meeting.
